

32AMP AND 63AMP EXTENSION LEADS

RUBBER FLEX LEADS - ULTRA FLEXIBLE HIGHLY DURABLE

Heavy duty highly flexible industrial strength 3 phase extension lead manufactured from rubber insulated cable with UV stabilised neoprene sheathing. Resistant to mechanical stresses, oils, chemical corrosion and weathering. Ideal for use in dry, damp or wet environments.

FEATURES

- Conductor: plain copper wire
- Insulation REP90 Inner: Ethylene Propylene Rubber (EPR)
- Outer: Polychloroprene (PCP)
- Core Colour: Black, blue, red, white, green/yellow (Australian Standard)
- Temperature Range: -25°C to +90°C

PART NUMBERS

10MM/10/50/56: 10m lead in 10mm cable with 50amp 56 style IP66 5 pin plug and socket

16MM/20/63/CEE: 10m lead in 16mm cable with 63amp CEE form IP67 5 pin plug and socket
